

Installation Guide

Problem 1: del.sync may create issue with permission:

How to fix:

```
//Use the below syntax for forcefully deleting the already available files.  
del.sync(['./public/assets'], { force:true });
```

Problem 2: Latest version of gulp-imagemin won't be supported.

How to fix: downgrade the gulp-imagemin@6.0.0

```
//Uninstall previous version of gulp-imagemin if installed  
npm uninstall gulp-imagemin  
//Reinstall the old version  
npm install gulp-imagemin@6.0.0
```
